

The **Deluxe Foam** mattress has the following features for optimum safety, comfort and hygiene

The Deluxe Foam mattress

This mattress

- has a combustion modified ventilated foam interior
- has a thermally bonded polypropylene cover on all sides, which is **WATER-RESISTANT** but **BREATHABLE AND REMOVABLE** for washing
- IS **HYPO-ALLERGENIC** and offers protection against dust mites, which causes eczema and asthma
- has an open top structure. The foam allows **GOOD AIR MOVEMENT AND HEAT DISSIPATION**
- is manufactured **WITHOUT** the use of Antimony, Phosphorus or Arsenic based fire retardant treatments.

Conforms to **BS1877-10:2011+A1:2012**
and **BS7177:2008+A1:2011**

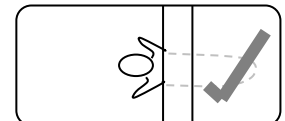

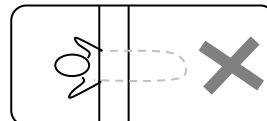

*Washing instructions for
the cover*

Machine washable at 60°C

Suitable for placing baby in feet to foot position

The Lullaby Trust (formally FSID) recommend to parents that they adopt the feet to foot position when settling their baby down to sleep.

By placing babies towards the bottom of the cot and tucking them in carefully, ensuring the sheets are no higher than shoulder level, will keep them from wriggling underneath the covers.
