

The **Quilted Sprung** mattress has the following features for optimum safety, comfort and hygiene

## The Deluxe Sprung mattress

### This mattress

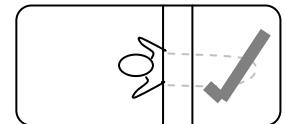

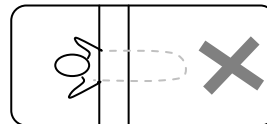

- has a quilted cover for extra comfort that is zipped for easy removal. The cover is **waterproof and breathable** and allows for **excellent air movement and heat dissipation**. The cover is also hypo-allergenic to offer protection against dust mites, which can cause eczema and asthma. The cover is bound for additional edge support.
- has **DELUXE** high tensile coil springs encased in individual pockets with a dent resistant nursery foam surround. A moveable waterproof membrane aids hygiene.
- is manufactured **WITHOUT** the use of Antimony, Phosphorus or Arsenic based fire retardant treatments.

The **Sprung** mattress is recommended for use in **cot beds** as it gives extra support

### Suitable for placing baby in feet to foot position

The Lullaby Trust (formally FSID) recommend to parents that they adopt the feet to foot position when settling their baby down to sleep.

By placing babies towards the bottom of the cot and tucking them in carefully, ensuring the sheets are no higher than shoulder level, will keep them from wriggling underneath the covers.

Conforms to BS1877-10:2011+A1:2012 and BS7177:2008+A1:2011

### Washing instructions for the cover

Machine washable at 60°C
